VOLUMETRIC FORMS for NEW-BORN, BABIES AND CHILDREN

FORME VOLUMETRICHE per BAMBINO E NEONATO

"Cetme Volumetric Forms" let you check the fit of finished hose size before packaging. This is an essential tool for any hosiery maker and retailer who wants to have a standard reference, thus avoiding any possible customers' complaints.
The form is flat, so the points of tights where you want to check the tension (e.g. ankle, thigh, waistline, etc.) can be taken between your fingers and you can feel if their fit is comfortable.

Material: Plexiglas 6 mm satin finish

AVAILABLE SIZE
